THURSDAY MARCH 17, 1887

Governor Stevenson has vetoed the Legislative bill authorizing the formation of a corporation for the purpose of conducting and carrying on a lottery in this State. In his message to the Senate, he calls the attention of that body, first, to the fact that his deliberate judgment, upon mature consideration, is that our fundamental law, considered as a whole, was intended by its originators in framing it, and by the people in adopting it, to require all legislation in this State to confine to it while it remains intact, and to prohibit any enactment of law dependent for vital force upon any such contingency as a change in the constitution, by either amendment or entire revision. He assigns several very logical and excellent reasons why a bill for a law cannot be enacted by the Legislature of this State, that is dependent upon the vote of the people, and also quotes from decisions of Supreme Courts bearing on the matter.

The Governor, in his message, also calls the attention of the Senate to Section I, Article 8, of the statutes, which is as follows:

The Legislature shall pass no special Act in any manner relating to corporate powers, except for municipal purposes; but corporations may be formed under general laws, and all such laws may, from time to time, be altered or repealed.

If this were not provided, he says, the Legislature could pass such special Acts *ad libitum*, and could thereby create corporations and grant to them special and exclusive privileges; and as soon as rights had been acquired under them, or they had ripened into the status of a contract between the State and the corporation, they would be irrevocable.

A telegram comes from Chicago, alleging that Commissioner Sparks, of the General Land Office at Washington, has been attempting to form a combination with Governor Hill, of New York, to defeat the nomination of President Cleveland, and furnish the Democratic party with a ticket in 1888, reading "Hill and Sparks." The evidence is said to be in two letters to a New York politician. Each of the documents is claimed to be now in possession of Ed. Stokes, and the publicity is due to the refusal of Sparks to allow a land claim worth \$500,000, which the Nevada Bank of San Francisco has pending. John W. Mackay is largely interested in that bank, and every one knows that Mackay is the backer of Stokes in all his enterprises. Ex-Congressman Frank Hurd, attorney for the bank, is quoted as authority for the story. No statement from Sparks is given, and the letters themselves are not published.

A co-operative building and loan association would undoubtedly prove a highly successful institution in Reno if managed by the right kind of men. By a combination of individuals it would accomplish what the same individuals could not accomplish separately. It would furnish an opportunity for young men and women to put away a portion of each month's income where it would draw good interest, and serve to promote habits of economy and thrift, and enable many to build homes for themselves.

The President hopes to appoint the Interstate Commerce Commissioners this week. There are probably 500 or 600 persons who have made application for places on the commission, and among them are many Republicans and Democrats. There are said to be no indications that any Pacific Coast man will be chosen on the commission.

Judge Hoadly is said to be the only prominent Ohio Democrat who has ever denounced the outrageous Democratic frauds in the Fourth ward of Cincinnati.

Considerable damage is being done by high water on the Upper Missouri river.

An explosion of dynamite which occurred yesterday in a stone quarry at Lobitz, Bohemia, killed every man in the quarry.

[PRESS DISPATCHES TO THE GAZETTE]

Another American Emigrates.

New York, March 17. Sheriff Grant has seized the place of business of Walter E. Lawton at No. 31 Broadway, who did business under the firm name of Lawton Bros., as fertilizers, under attachment from Judge Donahue, of the Supreme Court, on creditors' claims amounting to \$245,000. It is charged that Lawton has absconded to defraud his creditors; that he has disposed of his property and taken a large amount of money with him. Lawton was a director in the Delta Azotum Company and was entrusted with \$100,000 in notes to discount for the company on March 15. Lawton is said to have absconded with the proceeds of the discounted notes.

A number of banks were reported to be heavy losers through negotiations of Lawton's paper; among them are the First and Third National banks, the Bank of the Republic and the Chemical bank. The President of the First National bank denied that the bank handled any of Lawton's paper; the American Exchange National bank, which was reported a heavy loser, would not affirm or deny the report. The President of the Third National bank says his institution holds but a very small amount, which is secured by good endorsements. Just before leaving the city, Lawton drew from the Third National bank on checks, \$13,000.

The disappearance of Lawton has created a great deal of apprehension, and is generally believed that he is bankrupt. He left the office Tuesday afternoon as usual, to go to his home on Hudson street and has not been seen since. The amount of his liabilities is estimated at about \$1,000,000. Lawton is a widower and the sole representative of the firm, his brother, who was associated with him having died some time ago. Rufus T. Kirkland, Lawton's cashier, states that on Tuesday Lawton withdrew all his funds from the different banks in which he deposited and took money with him. Lawton, before his departure, destroyed all stubs, checks and papers of every kind from which any information could be secured as to the disposition of the funds and property. Joseph D. Jones placed in Lawton's care on Tuesday, in behalf of the company, \$12,000. This is also gone. Kirkland states that on Tuesday he had an interview with Lawton at Broadway and Wall streets and that Lawton requested him to go with him to the officers of the Third National Bank and introduce him. This he did. Lawton also asked him to obtain a blank warranty deed for the conveyance of real estate in New Jersey and to meet him at the New York hotel. He met Lawton there with the blank deed and both went to the Grand Central depot. Lawton told Kirkland he intended to leave the city by train; that he had drawn out all the money on deposit; that he was ruined; that he did not know what to do and that he would probably commit suicide. Lawton further said that he had exhausted all his resources and was not able to pay out any of the money in his possession. He left Kirkland to take a train.

A Heavy Transaction.

The Herald says that it is not official, but was described as nearly so, that the papers of the Baltimore and Ohio deal received their final signatures yesterday. One of the gentlemen named is John W. Mackay, now in San Francisco, but all day yesterday he was said to be in communication by wire with Mr. Sully, through Edward S. Stokes, President of the United Lines of telegraph companies. The terms as given are these: Mackay is to pay \$4,000,000, Sully and associates to pay \$200,000, and \$10,000,000 is to be paid for in trust bonds, secured by 80,000 shares of stock to be delivered by Mr. Garrett, to give control of the property of the Baltimore and Ohio telegraph, which is to be consolidated with that of all other companies, barring the Western Union.

Charged With Fraud.

New York, March 17. W. J. Hutchinson, an ex-broker, was arrested to-day and taken to the Tombs Prison. He was charged by Wm. H. Sistrup, of the firm of George Sistrup & Co., with converting to his own use and benefit and that of his wife, of over \$50,000 worth of stocks. The stock was deposited on different dates in 1884 with Hutchinson, to raise a loan.

All Drowned But Two.

Boston, March 17. A dispatch from Orleans, Mass., states that a tug rescued two of the men who were seen clinging to the foretop mast and bowsprit of the schooner J. H. Ellis, ashore off Nantuxet yesterday. The rest of the crew were drowned.

The Trans-Atlantic Racers.

New York, March 17. Captain Robinson, of the steamship Erin, which arrived from London yesterday, brought the latest news from the yachts, Coronet and Dauntless. The lights were seen on Sunday night, 230 miles east of Sandy Hook light-ship by the second officer of the Erin, who was then on duty. The Captain was not informed of the burning of any signals but flare signals, but these were shown in such a way that the officer was sure that they were not shown by pilots. The night was clear and the wind at the time was east-north-east, blowing strong. The schooners were heading east by south. This fact alone attracted the attention of the officer on duty, for he said it was two points nearer the wind than he had ever seen the pilot boats steer. The yachts were then close together, and both were going along under all the sail they could carry.

FOREIGN DISPATCHES

The Recent Attempt on the Czar's Life.

LONDON, March 17. Queen Victoria has sent a telegram to the Czar congratulating him upon his escape. The Prince of Wales visited the Russian Ambassador yesterday and expressed the grief of himself and the Princess of Wales, that such an attempt had been made on the life of the Czar, and his congratulations upon the Czar's escape. A dispatch from St. Petersburg says that two of the six persons arrested on the Newski prospect are quite young, and that two others appear to belong to the peasant class. All six carried poisons, and it is presumed they intended to commit suicide in the event of their being arrested, but were deprived of the chance by the suddenness of their capture. Twenty female students of Bestucheff Institute are among those arrested in connection with the plot.

Wholesale Arrests.

St. Petersburg, March 17. The plot to assassinate the Czar, which was to have been carried out last Sunday, was arranged by members of the Terrorist section of the Nihilists, and no connection with it has been traced to the faction which is conducting the constitutional agitation, although this faction has assumed the character of a secret society, with widespread ramifications. Several hundred persons who have affiliated with the agitation have, however, recently been arrested.

St. Patrick's Day in England.

LONDON, March 17. A feature of the observance of St. Patrick's Day in England was the appearance of many Englishmen wearing shamrocks. A sleet and snow storm swept all out door demonstrations in honor of the day. It is feared that riots will ensue from the celebration of the day at Lurgan, County Anamagh, and 200 extra policemen have been added to the regular local force.

Murder and Suicide.

Toulon, March 17. Yesterday Mr. Anbergator, the conductor of the orchestra at the Grand Theater, quarreled with his mistress, an actress named Lery, and shot her dead just as she was buying a ticket at a railway station. The murderer then threw himself beneath a passenger train and was crushed to death.

Advised to Stay at Home.

Paris, March 17. M. DeLesseps to-day visited President Grevy and Count Von Munster, the German Ambassador. The Radical press makes a bitter attack on M. DeLesseps for calling France the natural friend of Germany, and advises him to stay at home in the future and confine himself to canal matters.

News From the Vatican.

ROME, March 17. At the consistory to-day the new Cardinals were created. The Pope also recognized the new Archbishops and Bishops in Canada, the United States, India, and Australia. The Pope telegraphed the Czar, congratulating him on his escape from assassination.

The Western Settler's Chosen Specific.

With every advance of emigration into the far West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared lands, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the bitters afford the only safe protection against malaria, and these disorders of the stomach, liver and bowels, to which climate changes, exposure and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.

Enjoy Life.

What a truly beautiful world we live in. Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often do the majority of people feel like giving it up diseased, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can obtain satisfaction from the use of Hostetter's August Flower will make them as free from disease as when born. Dyspepsia and liver complaint are the direct cause of such ailments as indigestion, biliousness, indigestion, sick headache, costiveness, nervous prostration, dizziness of the head, palpitation of the heart and other distressing symptoms. These doses of August Flower will prove its wonderful effect. Sample bottles, 10c. Try it. nov29yl

The Verdict Unanimous.

W. D. Sult, druggist, Bippus, Ind., testifies "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of rheumatism of 10 years' standing." Abraham Hays, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half dollar bottle at S. J. Hodgkinson & Co.'s Drug Store.

Make no Mistake.

By dispelling the symptoms so often taken for consumption, SHILOH'S BILLY has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CATARRH CURE is equally effective in eradicating all traces of nasal catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, Reno, Nevada.

Notice!

Manning & Jaques have been commissioned by the Reno One Co. as a competent firm to do their engineering, and the company would recommend parties having work of the above character to do, to employ only the best workman, thereby saving much annoyance and expense. Have Used Them for 15 Years.
SING SING, N. Y.,
May 27, 1886.

I have been using Alcock's Porous Plasters for the last 15 years in my family and can conscientiously recommend them as invaluable when applied where pain is to be relieved. Two years ago I contracted pneumonia from a heavy cold, and during my convalescence, and in the winter months since, have worn one on each lung across my back and have experienced great benefit therefrom, and was relieved from a threatened return in less than 24 hours.

A COMPREHENSIVE ADDRESS

Fred M. Campbell, of California, on Education on the Pacific Coast.

A Washington telegram of the 15th instant says: At the meeting of the National Department of Superintendence to-day the feature was the address of Fred M. Campbell, of Oakland, Cal., on "Education on the Pacific Coast." Mr. Campbell is the only representative of California here. His paper was listened to with marked attention, and at the conclusion he received the congratulations of the assembled educators of the country. His paper was exhaustive. He reviewed the early difficulties and the causes which led to the marked success which California had achieved educationally. Commencing at the University he came down to kindergarten work, paying a tribute to Mrs. Leland Stanford and Miss Harriet Crocker. He referred to the Deaf, Dumb and Blind Institute, the home for the Adult Blind, the Feeble-Minded Children's Home, the orphan asylums, the Academy of Sciences, the historical, microscopical, and geographical societies etc., and enlarged upon the magnificent gift of Senator and Mrs. Stanford, and the far-reaching plans of the donors. James Lick and Adolph Sutro were not forgotten, and he closed with an eloquent appeal for the department to come to California and see for themselves if he was not a true chronicler. The Grand Army of the Republic and the Knights Templar would bear witness how California receives her guests. Quoting from Shelly's "Hellas," he finished his address of one hour and a half amid the hearty applause of the audience. It is generally believed that the next meeting will be held in California.

The "University Monthly"

The first issue of the *University Monthly*, a new publication of 24 pages, edited and managed by students of the State University, has made its appearance from the GAZETTE office, and is now on sale in the principal book stores of Reno. Its business managers are W. H. Pearson, Nott Lee and W. H. Dauchy. C. A. Norcross is editor-in-chief. He is assisted by the Misses Cora Manning and Gertrude Shoemaker, and Messrs. Lewis Boardman and Frank Norcross. The number before us is ably edited, and typographically, very neat. It certainly reflects credit upon all who put their shoulder to the wheel to make it a literary and financial success. The subscription price is only \$1 a year; single copies, 15 cents.

Arrested for Embezzlement.

The White Pine News learns that Wm. Hayes, an old and respected citizen of Hamilton, has been arrested on two charges of embezzlement, and held in the sum of \$3,000 on each charge. Failing to give bail he is now in jail. A GAZETTE reporter learned some time ago that Hayes, prior to the upheaval in values of mining shares last November, represented himself as an agent for a San Francisco stock broker, and as such received orders and coin for mining shares, which, he alleged, were purchased and in the hands of the said broker. When the rise came some of the patrons wanted to sell, but were unable to do so. Then the true condition of affairs dawned on them.

An Insane Man Arrested.

An insane man named Jerome Knox was arrested this morning at the Palace Hotel. He is said to be connected with the United States Land Office at Lake View, Oregon. Whenever he hears a noise he imagines that a mob is endeavoring to capture and kill him, and he wants to commit suicide in order to frustrate their designs. Sheriff Flint arranged this morning to have him removed to the Asylum for care and treatment until his friends are heard from.

Taking Care of the Unfortunate.

Ohio is erecting a new insane asylum at Toledo, which will accommodate 1,000 patients. When this one is completed the Buckeye State will have six insane asylums, that will accommodate 4,700 patients. The provisions made for the insane are on the basis of one insane person to about every 700 inhabitants.

They Want Homes in Reno.

Two prominent members of the Nevada Live Stock Association say they will, during the coming year, build residences in Reno that will cost not less than \$8,000 each, provided they can find a block of land that suits them.

Cattle Shipments To-day.

William Hope will ship 13 carloads of beef cattle this evening to E. & H. Moffit, San Francisco. Mr. Brandenstein will at the same time forward the five carloads that came in from Lovelock last night, and were unloaded here to rest.

Miss Frank Smith, sister of Mrs. J. F. Emmitt, went to Beckwith yesterday to spend the Spring months with her mother.

The Frankel Embezzlement Case.

The trial of the State vs. L. B. Frankel et al., on four charges of embezzlement, came on yesterday morning in the District Court, county of Storey, Judge R. Rising presiding. The number of spectators that thronged the court-room was large. W. E. F. Deal, on behalf of the Frankels, applied to the Court for a change of venue, claiming that the defendant would be in danger of his life if tried in Storey county. Judge Rising said that if during the impaneling of a jury there should appear a prejudice existing against the defendant in Storey county strong enough, in his judgment, to preclude the possibility of a fair and impartial verdict in accordance with the evidence, he would entertain the motion for a change of venue. After examining 48 jurors, 12 were impaneled to try the case. Mr. Deal made of the Court a request that was equivalent to a non-suit. This was dismissed. The court adjourned to meet this morning at 10 o'clock, when all witnesses in the case were ordered to be promptly on hand.

Death of Wash Small.

A dispatch has been received at Carson, announcing the death, at Humboldt Bay, Cal., of Wash Small who for many years had charge of the wood and lumber yard at Lake View. Deceased was a brother of B. F. Small, at one time landlord of the Arcade Hotel in Reno, and of Mrs. Frank Hughes, of this town.

The Next Theatrical Attraction.

Fairfield & Staley's Comedy and Specialty Co. will appear at the Nevada Theater to-morrow (Friday) evening. It comprises six artists, who are said to produce more fun and merriment than the average company of a dozen or more members. Popular prices of admission.

Attending Funerals by Rail.

The Southern Pacific Company are laying sidetracks to cemeteries in the vicinity of San Francisco and Oakland for the purpose of running funeral trains. The charge for passengers attending a burial will be only 25 cents for the round trip. The charge for a hack for the same service is \$6.

I. O. O. F.

The final arrangements have been made between Truckee Lodge No. 14, I. O. O. F., and G. W. Mapes, owner of the brick store next to the Golden Eagle Hotel, the latter agreeing to add 20 feet to the length of the building, when it is to be occupied by the Odd Fellows.

Poisoned by Candy.

Candy purchased in Montreal recently caused the death of Rev. William T. Howland and wife, of Auburndale, Mass., and the serious illness of their two children. The moral of the above is, you should never eat imported confectionery.

An Early Decision.

The Iowa Board of Railway Commissioners has rendered a decision in a case in conformity with the Interstate Commerce law, prohibiting discrimination in long and short hauls.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietene Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietene Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

WORTHY Of Confidence.

AYER'S Sarsaparilla is a medicine that parts of the world, has proved its efficacy as the best blood alterative known to medical science.

SARSAPARILLA (extracted from the genuine Honduras Sarsaparilla) is its base, and its powers are enhanced by the extracts of Yellow Dock and Stillingia, the Iodides of Potassium and Iron, and other potent ingredients.

IS your blood vitiated by derangements of the digestive and assimilatory functions? Is it tainted by Scrofula? or does it contain the poison of Mercury or Contagious Disease?

THE leading physicians of the United States, who know the composition of **AYER'S SARSAPARILLA**, say that nothing else so good for the purification of the blood is within the range of pharmacy.

ONLY by the use of this remedy is it possible for a person who has corrupted blood to attain sound health and prevent transmission of the destructive taint to posterity.

THOROUGHLY effective renovation of the system must include not only the removal of corruption from the blood, but its enrichment and the strengthening of the vital organs.

RELIABLE world, testify that this work is better accomplished by **AYER'S SARSAPARILLA** than by any other remedy.

BLOOD that is corrupted through disease is made pure, and blood weakened through diminution of the red corpuscles is made strong, by **AYER'S SARSAPARILLA**.

PURIFYING up the system requires time in serious cases, but benefit will be derived from the use of **AYER'S SARSAPARILLA** more speedily than from anything else.

MEDICINE for which like effects are falsely claimed, is abundant in the market, under many names, but the only preparation that has stood the test of time, and proved worthy of the world's confidence, is

Ayer's Sarsaparilla,

AN ARKANSAS WEDDING.

The New Ceremony Just Approved by the Governor.

A very interesting wedding occurred over at Hock's Springs the other night. Ben Lother and Ida Grimes ran away from the neighborhood where they had been reared, and applied to young Wilkinson, who recently accepted a call to preach. The arrival of the runaway couple soon became known, and quite a number of young people gathered at the school house where the ceremony was to be performed. The preacher, upon arriving, called Bill Fellers to one side, and said:—

"Bill, I couldn't refuse to accommodate that young couple, but to tell the truth I don't know how to perform a marriage ceremony. I was never married and I never saw anybody married, and I don't understand the performance."

"I never saw anybody married, either," Bill replied, "and I don't believe there's anybody here that understands it."

"It won't do to disappoint them, for I understand the girl's father is in pursuit. Let's see, you were commissioned as a justice of the peace the other day weren't you?"

"Yes, but the papers didn't shed any light on marriage ceremonies."

"I don't know what to do about it," the young preacher continued. "They've begun to grow restless, you see."

"Well, parson, I don't understand it any more than you, but I am willing, if you'll help me kill hogs next week, to take the job off your hands."

"All right," Bill turned to the company, and said:—

"Ladies and gentlemen, we've met here to engage in a very serious business. This young couple" (pointing) "think they ought to be married, and it ain't for me to say they ought not. Young fellow, have you got your license?"

"Yes, sir."

"All right. Hop out here now." The young couple advanced.

"Join hands," said Bill. "I would like to say that the new ceremony just approved by the Governor has gone into effect. Those who have never seen this ceremony performed will doubtless be amused at its novelty, but I'll say right here that all snickering will be treated as contempt of court. Young man, what is your business?"

"I am a farmer."

"Ah, hah! How many rails can you split in a day?"

"Four hundred in good timber."

"Will you swear to it?"

"Yes, sir."

"Hold up your right hand."

He held up his hand and was sworn. Bill continued: "Are you a good hand to cover corn?"

"Yes, sir."

"Please say, 'Yes, your Honor.'"

"That's right. How much can you cover in a day?"

"Three acres, if the land's in condition."

"Will you swear it?"

"Yes, sir."

"Excuse me. Yes, your Honor."

"Hold up your right hand."

And he was sworn again.

"What was the weight of the largest bass you ever caught?"

"I don't remember exactly. About five pounds, I reckon."

"Will you swear it?"

"No, your Honor."

"All right. Are you willing to marry this girl?"

"Yes, your Honor. If I want I wouldn't have brought her here."

"That's what I thought," Bill meditatively replied. "You love her, I reckon?"

"Yes, your Honor."

"How much?"

"Oh, I don't know. Ever so much."

"What did she say when you asked her?"

"She said, 'Yes.'"

"Glad to hear it." Bill meditatively replied. "You love her, I reckon?"

"Yes, your Honor."

"How much?"

"Oh, I don't know. Ever so much."

"What did she say when you asked her?"

"She said, 'Yes.'"

"Glad to hear it. Please step forward and kiss the Judge." Again she kissed him.

"Remember that you are under oath. Did you ever love any one else?"

"Yes, your Honor."

"Why didn't you marry him?"

"He didn't ask me."

"Please advance and kiss the Judge."

"Look here, 'Squire, said the would-be-bridegroom. 'I believe we'd rather be married the old way.'"

"The old way is repealed. Young lady, how old are you?"

"Look here, Judge," said the now impatient lover, "that's none of your business."

"Yes, it is. Young lady, you will please advance and kiss the Judge."

"No, I'll be blamed if she shall exclaimed the young man; 'an' more than that, this thing has gone far enough. Now, I want to ask you a few questions. Don't move. The young fellow whipped out a pistol, and Bill's knees began to hump each other. 'Now, just stand there. Did you ever see a bigger liar than you are?'"

"No, sir."

"No, Colonel."

"No, Colonel," Bill repeated.

"Wouldn't you steal if you got a chance?"

"Yes, Colonel."

"That's what I thought. Now, confound you, lead us to a preacher's house pretty devilish quick. Come on, folks; the fun ain't over yet."

(Arkansas Traveler.)

A LESSON WITH A MORAL.

When will Our Eyes be Opened to This Great National Calamity?

The year 1886 played sad havoc with many prominent men of our country.

Many of them died without warning, passing away apparently in the full flush of life.

Others were sick but a comparatively short time. We turn to our files and are astonished to find that most of them died of apoplexy, of paralysis, of nervous prostration, of malignant blood humor, of Bright's disease, of heart disease, of kidney disease, of rheumatism or of pneumonia.

It is singular that most of our prominent men die of these disorders. Any journalist who watches the telegraph reports, will be astonished at the number of prominent victims of these disorders.

Many statements have appeared in our paper with others to the effect that the diseases that carried off so many prominent men in 1886, are really one disease, taking different names according to the location of the fatal effects.

When a valuable horse perishes, it becomes the nine days' talk of the sporting world, and yet thousands of ordinary horses are dying every day; their aggregate loss is enormous, and yet their death creates no comment.

So it is with individuals. The cause of death of prominent men creates comment, especially when it can be shown that one unsuspected disease carries off most of them, and yet vast numbers of ordinary men and women die before their time every year from the same cause.

It is said if the blood is kept free from uric acid, that heart disease, paralysis, nervous prostration, pneumonia, rheumatism, and many cases of consumption, would never be known. This uric acid, we are told, is the waste of the system, and it is the duty of the kidneys to remove this waste.

We are told that if the kidneys are maintained in perfect health, the uric, kidney acid is kept out of the blood, and these sudden and universal diseases caused by uric acid will, in a large measure disappear.

But how shall this be done? It is folly to treat effects. If there is any known way of getting at the cause, that way should be known to the public. We believe that Warner's safe cure, of which so much has been written and so much talked of by the public generally, is now recognized by impartial physicians and the public as the one specific for such diseases.

Because public attention has been directed to this great remedy by means of advertising, some persons have not believed in the remedy. We cannot see how Mr. Warner could immediately benefit the public in any other way, and his valuable specific should not be condemned because some nostrums have come before the public in the same way, any more than that all doctors should be condemned because so many of them are incompetent.

It is astonishing what good opinions you hear on every side, of that great remedy, and public opinion thus based upon an actual experience, has all the weight and importance of absolute truth.

At this time of the year, the uric acid in the blood invites pneumonia and rheumatism, and there is not a man who does not dread these monsters of disease; but he need have no fear of them we are told, if he rid the blood of the uric acid cause.

These words are strong, and may sound like an advertisement, and be rejected as such by unthinking people, but we believe they are the truth and as such should be spoken by every truth-loving newspaper.

Excitement in Texas.
Great excitement has been caused in the vicinity of Paris, Texas, by the remarkable recovery of Mr. J. E. Corley, who was so ill he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh 35 pounds. Trial bottle of this great Discovery for Consumption free at S. J. Hodgkinson & Co's.
